Dear Mr. Grey:

It has been a pleasure to serve with you on the Advisory Council over the past year. Thank you for your time and commitment to the Council during your term.

Although your term ends on June 30, 2016, I would like to encourage you to continue your relationships with Council members and Board staff. Your contributions are valuable, and I hope that we may still have the benefit of your insights through your participation in local discussions, public meetings, and other Board communication channels.

Thank you again for your service. Your willingness to be part of the discussion has expanded the collaboration between the Board and its stakeholders, and, most importantly, helped to improve the system for injured workers and employers.

Sincerely,

Mary Beth Woods
